Is there any provision in the Budget? Please note the savings, if any, by the new arrangement of abolishing the Chairman of the T B & Executive of the Municipality. A copy of the T B Budget may be put up. DMC 7/9 7/9

Ptd

There is no provision in the current year's budget for the items of Charges. A Copy of the Local Board Budget is placed in the file.

2 In order to gauge the financial effect of the new arrangement with regard the following questions will have to be decided,

(a) Whether with the appointment of Mr. G S Lakshmana Rao as Chairman, the post of the Ex. Engineer of the Board has been done away with-

understood like so

(b) Whether the Govt are prepared to sanction the Board's proposals to revise the status and pay of the Asst Engineer, and to create a new Sub Division and

Approved by 2nd Councillor & Secretary under consideration

(c) Whether the salary of the Chairman will have to be adjusted by debiting Rs 500 to Local Board funds and Rs 100 to the Improvement Municipality, as suggested by the 2d Councillor.

4 Subd Against the reduction of Rs 212/ a month referred to in para 9, the proposed reversion of lower establishments involves a permanent additional expenditure of Rs 378/. a month 12 There will thus be no saving

Put up
18 9.13 Dr Seq 3) Dr Seq 3) Ans 19/9

13 Mr Lakshamana Row was drawing Rs 400 + 100 + 60 or Rs 560 in the Engineering Dept prior to his present appointment on Rs 500 + 100 l a per mensem

As there is no provision for the old allowance of Rs 200 per mensem in the sanctioned budget, (2) the arrangement is of a tentative in character (3) and its basis was economy, the present proposal seems to be somewhat premature Please vide the Diwan's Submission Note to the Engineer & the Diwan's Note on the Manuscript draft order in File 296, Part B for March 1913.

9 + K

At the same time, it is noteworthy that for an increase of Rs 40 in his monthly emoluments, Mr L Row got charge of two offices whose responsibilities are decidedly very much more than his D P W charge for Rs 560 per month

Perhaps the Trust Board may be informed that the question raised by them will be considered by Govt after the expiry of the period of one year prescribed for the trial of the present arrangement, should it be

N

of the G.O. of 4th March 1913, a full report was required to be submitted on the results of the working of the new arrangement. This report is still due and a reminder was sent to Mr Lakshmana Rao on the matter. A telegraphic reminder has just been issued by me to be sent.

There is also another point worthy of notice.

O

In the Diwan's Submission Note of the 25th Feb 1913, it was pointed out that the appointment of Mr Lakshmana Rao would be for one year. This period however, expired on the 14th March last, as Mr Lakshmana Rao took charge of his office on the 15th March 1913. But two circumstances render it not necessary to proceed in any way irregular as the G.O. and the Note sanctioning the appointment do not limit it to one year though it is stated to be temporary.

N. P

In these circumstances it is suggested that the report of working be awaited and on its receipt the question of continuing the present arrangement of granting increased salary to Mr Lakshmana Rao be dealt with as part of this case.

from the Dy. Comr., Mysore Distt.

Submits the report received from the Chairman, Mysore City Improvt. Trust Bd, on the result of the appointment of a whole-time President of the Mysore City Municipality and Chairman of the City Improvement Trust Board, and adds that in his opinion this arrangement is found to be more satisfactory than the old system under which the Dy. Comr. with the Revenue Administration of the largest District could not devote the required attention to the work connected with the Municipality and the Trust Board

19 File resubmitted The several points requiring orders are:—

(a) Continuance of the present arrangement of a whole-time President of the Municipal Council and Chairman of the Trust Board

(b) Grant of an allowance of Rs 200/- to the Chairman

(c) Amalgamation of the Trust Board with the Municipality. In this connection, attention is invited to the latest resolutions of these bodies favouring independent existence

The file on this subject has been submitted

& letter under

~~Separately~~

(2) The Mysore Actg Mumb. Consul's request to have Pranden being permitted to Correspond with the Govt directly. Attention is invited to the 2d Member's order dated the 12th Nov. 1913 recorded in Mk file 201 of 1913

~~Invited~~

~~4 5 1913~~

20 ~~Submitted for orders~~

The report of Mr Lakshmana Rao shows that owing to the Viceroy's Visit, and his own deputation to Bombay, Baroda, Ahmedabad & Poona, he could not devote the entire year for Municl & Trust Board Work

It is not quite easy to review proposals in the absence of a detailed report on the lines of the Annual Admn Report, but from the figures furnished in para 3 of the Report under Consideration, it is seen that the realisation of Municl revenues (apart from Grants & Contributions and Public Debt heads) have been less than in the previous year i e Rs was only Rs 1,56,373-11-2 against March Feb 1913-14 as Rs 1,73,457 1-9 in March Feb 1912-13

The Acquisition work under the Trust

GPE—60 000—7 11 13

Serial No.

Board has also shown a Considerable decrease, from Rs the expenditure in 1913-14 being only Rs 14 902 against Rs 58,178 in 1912-13

As against this, Mr Lakshmana Rao attributes the preparation of a large number of new estimates and projects. The expenditure on Conservancy Works under the last Board during the period 1st March 1913 & 3rd 1914 was Rs 1,68,904 against an outlay of only Rs 9,476 in the previous 12 months. The abnormally small outlay in 1912-13 was however due to the temporary suspension of Trust Board activity, pending Govt orders on the Comprehensive Programme.

On the whole, there does not appear to be any doubt that Mr Lakshmana Rao has plenty of work. In order to get at an exact idea of the effects of this arrangement, it would probably be useful to extend the arrangement till the end of the official year 1914-15, and to review the position after getting the normal Administration Report for that year.

(2) Mr [redacted] Proposal for grant of an additional allowance of Rs 200/- to Mr Lakshmana Rao is a point for the orders of Govt.

Note the time of transfer, T & L Rao was working as Kamamboday & was Rs 400 pay + 100 L A, + 60 P T A Rly

He is now drawing Rs 500 (Rs 100 more than his present pay as Ex Engr 4th class) + Rs 100 local allowance

(3) As regards the Amalgamation of the Trust Board & the Muni Council, the question has been fully noted upon in the linked file, which has been returned to the Branch for being kept pending the receipt of the report and the revision of the Trust Board Establishment

Trade pending since No 1 of 14

There appears to be great force in the argument that until all the necessary improvements are effected the Trust Board funds & operations should be kept distinct from those of the Municipal Fund, there is the probability of Trust Board grants being diverted for the ordinary purposes of the Municipality

(4) It is a point for orders as to whether the question of direct Correspondence between the President of the proposed Muni Council and Govt may be reconsidered now,

21 Mr Lee's orders are solicited as to the continuance of the present arrangement of the grant of an additional allowance to Mr Lakshmana Rao

Arm 14/5

Rs 15/-

Secretary

22 (I) The existing arrangement in regard to the Mysore City Municipality the T Board may be continued for a couple of years more At the end of this period the question of making it permanent may be considered in the light of fuller results achieved.

(II) The Trust Board are not favouring the grant of a local allowance of Rs 200 per mensem to Mr Lakshmana Rao If this is sanctioned by Govt, the charge will have to be debited to the T B and the City Municipality in the proportion of 2 to 1 in accordance with the principle recently laid down

S

(III) On merits I have nothing to add to my Note of 20/9/13, to which kind attention is invited

D M Narasimha Rao
18/5

Second member

NOTE—Contn sheet

General and Revenue Secretariat | 2d File No. 131 of 1913.

Serial No 23

The points for consideration are (1). The continuance or otherwise of the present system of remitting [illegible] for one year which has expired on the 14th of March last (2). The recommendation of the B. of R. & C. to give the Chairman an allowance of Rs 200

(3) The recommendation of the Bd. Council that their powers be extended to confirm direct with final effect of their decisions of the present.

As regards (1) both the Bd. Council & the B. of R. & C. have reported that the present system has been found working satisfactorily & should therefore be made permanent. But in my opinion, the system has not had a long enough trial & I would recommend its continuance for a further period of two years i.e. till the 15th of March 1916 which would make the whole three years from the date of the G.O. sanctioning the scheme.

(2) The Collectorate may have its present allowance of Rs 100 raised to

Serial No

Rs 200/- for increase. This is the case which considering the responsibility of the combined office. The D.C. may allow a draw his annual allowance when he was in charge of the Chamarajanagar duties & in the case of his being the allowance also may be borne by the two Govts in the proportion of 2 to 1. This may be made effect from the date of G.O. sanctioning this increase of allowance

(3). I think we should be serving the interests of the persons the Resident to consult direct with Govt. as is allowed in the case of Bangalore & Md. Council.

I have discussed this on a previous occasion also.

(4) The position of Commissioner; of the Md. Council & the of Inspecting Asst-Board does not affect the expediency of any rule in this case we may as well drop the clause in the present.

Final Note by the Second ~~Councillor~~ Member of Council

44 Subject

Grant of an enhanced rate of local allowance to Mr.T.G.Lakshman Rao, Chairman of the Improvement Trust Board and President of the City Municipality-Mysore and other allied matters.

-----oOo------

The papers relate to the appointment of a whole-time officer as President of the Mysore City Municipal Council and Chairman of the City Improvement Trust Board.

Hag IV

2. In March 1913, the old arrangement under which the Deputy Commissioner of the Mysore District was the Ex-officio Municipal President and Chairman was done away with, and as a tentative measure, Mr Lakshmana Rao, Executive Engineer, 4th class, Temporary, was appointed whole time Municipal President and Chairman on a salary of Rs.500+100 local allowance A report was also called for on the result of the working of this arrangement after a year's experience to enable the Government to consider whether it might be continued with advantage and whether the Trust

Trust Board might also be amalgamated with the Municipality under suitable conditions.

3. That report has since been received. Both the Municipal Council and the Board of Trustees consider that the new arrangement has worked satisfactorily and urge that it may be made permanent, the two bodies existing each independent of the other as heretofore In transmitting the report to Government, the Deputy Commissioner of the Mysore District adds as his opinion that this scheme is found to be more satisfactor than the old system when the Deputy Commissioner with the Revenue administration of the largest District in the Province was also President of the Municipalit and Chairman and could not devote the required attention to the work of these bodies.

Paper under disposal (2) Leb Endorsement

4. In this connection, two side questions have been raised by the Municipal Council and the Trust Board for decision One is about the Municipal President corresponding with Government direct and the other about his local allowance After the -- - appointment of Mr.Lakshman Rao as Municipal [redacted]ent

it was ruled that the Municipal President should correspond with Government through the Deputy Commissioner of the District as in the case of the other Regulation Municipalities except Bangalore City. This restriction has not found favour with the Municipal Council who have been repeatedly urging that their President may also be permitted to correspond with Government direct, as in the Bangalore City Municipal Council.

Regarding the second question the Board of Trustees have recommended that the allowance of Rs.200 a month which used to be drawn by the Deputy Commissioner of the Mysore District as Chairman may be given to Mr.Lakshman Rao also, regard being had to the multifarious duties devolving upon him as Municipal President and Chairman.

5. Thus, the several points requiring orders are -

(a) Whether the present tentative arrangement of having a whole-time President and Chairman may be continued, and if so, whether the Trust Board may be amalgamated with the Municipality under suitable conditions

(b) Whether the Municipal President may be permitted to correspond with Government direct, and

(a) whether the allowance of Rs.200/ recommended by the Trust Board may be given to Mr.Lakshman Rao.

6. As regards the first point both the bodies recommend that the present arrangement may be made permanent with the two bodies existing side by side as independent entities I am not prepared to support this recommendation as I think that the system has not had a sufficiently long trial to justify such a recommendation. It may however be continued till the end of the current official year.

With reference to the second point, my opinion is that such a restriction is unnecessary and that we will be removing much soreness by allowing the Municipal President to correspond with Government direct as in the case of the Bangalore City Municipality

I further recommend that the present local --- allowance of Rs.100 drawn by Mr Lakshman Rao may be raised to Rs.200/- with effect from the date of the Government Order sanctioning the same.

(b) Whether the Municipal President may be permitted to correspond with Government direct, and

(c) whether the allowance of Rs.200/ recommended by the Trust Board may be given to Mr.Lakshman Rao.

6. As regards the first point both the bodies recommend that the present arrangement may be made permanent with the two bodies existing side by side as independent entities I am not prepared to support this recommendation as I think that the system has not had a sufficiently long trial to justify such a recommendation. It may however be continued till the end of the current official year.

With reference to the second point, my opinion is that such a restriction is unnecessary and that we will be removing much soreness by allowing the Municipal President to correspond with Government direct as in the case of the Bangalore City Municipality

I further recommend that the present local --- allowance of Rs.100 drawn by Mr Lakshman Rao may be raised to Rs.200/- with effect from the date of the Government Order sanctioning the same.

Pages 16-17 of the Note. (Page 13-13)

7. The Financial Secretary considered that no case had been made out for increasing the Chairman' local allowance. The Extra-ordinary Member agreed with the Financial Secretary in this respect and concurred in my opinion on other points The first Member and the Dewan agreed with my views generally

Do — 17 & 18 of the Note.

Pages 19-20 of the Note

8. The matter was afterwards considered in Council on the 28th April 1915 when my views on all the thr questions were accepted by the Council The file was again referred to the Financial Secretary for concurrence, but Mr.Chakravarti considers that there is no case for raising the local allowance as the "charge of the Municipal and Improvement Trust Chairman, Mysore City, is not heavier than some charges for which no additional local allowance is given" Thereupon the question of granting increased local allowance to Mr.Lakshman Rao was again considered in Council on the 2nd July 1915 when the Council adhered to their opinion arrived at on the 28th April 1915

Do - 21-22 of the Note -

Page 28 of the Note.

9. In these circumstances, I request that the proposals which have received the approval of the

the Council may be sanctioned.

19th July 1915.

Submitted to His Highness

Pag A, 45

I submit the Second Member's Final Note on the question of continuing the present arrangement of having a whole-time officer as President of the Mysore City Municipal Council and Chairman of the City Improvement Trust Board. It explains the matter in detail and gives the reasons for the opinion of the Council.

19 of Office Note (Ore 131-13)

2. I recommend that the opinion of the Council may be graciously approved.

MYSORE CITY IMPROVEMENT TRUST BOARD
CHAIRMAN'S OFFICE,

Dated, Mysore, 13th August... 1913

Rl 13/- 13/8/1

From

T. G. Lakshmana Rao, Esq., L.C.E.,

Chairman of the Board of Trustees,
Mysore City Improvements

To

K. R. Srinivasiengar, Esq., M.A.,

Secretary to the Govt of H H the Maharaja
of Mysore, Gen and Rev Departments

Sir,

I have the honour to submit for such action as the Government may deem fit, copy of a communication from Mr.M. Venkatakrishnaiya requesting me to place the question of the grant of an allowance of ₹ 200/- to the Chairman before the Board, and to state that the same having been considered at its Meeting held on the 30th. June 1913, the Board unanimously resolved that the allowance be recommended to Government for sanction. A copy of the opinion recorded by the Trustees with copy of resolution No.X dated the 30th June 1913 is enclosed for ready reference.

I have the honour to be,

Sir,

Your most obedient servant,

T. Lakshmana Rao

SUBJECT

Submits copy of communication from Mr.M. Venkatakrishnaiya requesting to place the question of the grant of an allowance of Rs 200/- to the Chairman, Mysore City Improvement Trust Board, Mysore.

GEPM—STO—11-6-1913.

Ex Bud 131-13

Letter dated 30th. May 1913 from Mr. M. Venkatakrishnaiya to the Chairman, Mysore City Impts. Trust Board, Mysore.

+++++++++++++++

I told you that a little alteration in the Trust Board Budget was necessary. The allowance of the Trust Board Chairman has hitherto been Rs 200/- a month. The present Chairman has to do the duties of the President of the Municipality in addition to his own duties and has also to attend to the work of the Trust Board Engineer besides attending to the Acquisition work as well as the work of the supervising the details of the -- management of the Municipal and Trust Board offices. I am of opinion that the Rs:200/- allowance that used to be given to the Ex-officio Chairman of the Board may also be given to the present Chairman of the Board. I beg you will kindly circulate this letter among the Trustees of the Board, and if they approve of it, make the necessary correction or alteration in the Budget.

SIR,

N

Rec: 30 4 14 Regd Regr Govt

With reference to Government Order No.7035-5/M1.295-12- dated the 4th. March 1913, appointing, as a tentative measure a whole time Officer as the President of the Mysore City Municipal Council and Chairman of the Trust Board and directing the submission of a report on the result of the working of this arrangement, I have the honour to submit the following report.

2. On 15th. March 1913 the President-Chairman took charge of the offices of the President of Municipal Council and of the Chairman of the Trust Board and since then he has -- continued to be in charge of the said offices Before proceeding to exhibit the results of the year's work it is necessary to invite attention to the fact that out of the period of 12 months under report, a considerable portion of the President-Chairman's time and labour was taken up by special works viz - the arrangements in connection with His Highness the Maharaja's birthday festivities and their attendant functions in May and June 1913, arrangements for the reception of His Highness the Yuvarajah on his return from his European tour in September, arrangements in connectic

GBPM—300—11-6-1912.

with the Dasara festivities in September, arrangements in connection with the visit of His Excellency the Viceroy and Governor General of India to Mysore in November, and the deputation of the President-Chairman in January and February 1914 to Poona, Bombay, Baroda and Ahamadabad under the orders of Government for studying and reporting upon the working of the Municipalities there and of the methods of improvements to the Cities. These special works occupied the President-Chairman for a period of about 5 months in the aggregate and engaged much of his attention. The several periods of time so devoted to the special works were not continuous but were spread over different months of the year as pointed out above with such short intervals between every two of them that the President-Chairman could not give his continued undivided attention to purely Municipal and Trust Board work. Notwithstanding this, the results of the year's working, it is trusted, compare favourably with the results achieved in the previous year 1912-13 under the former regime.

3. A comparative statement of Receipts and Expenditure of the Municipal Council and the Trust Board for the years ending February 1913 and February 1914, is noted below.

Mysore City Municipal Council

Receipts.

I. Municipal Works.

(1) Improvement to the market.

(i) Construction of pucka terraced verandah to the eastern face -- including improvement to the stalls. ..... Rs 7500 9858

(ii) Construction of 18 new stalls on west and improving 18 more on the same side. Rs 5,043

(2) Construction of Model Sanitary Government -- school in Lakshmipuram extension(near completion)... . ... Rs 7500 9800

(3) Construction of Beef - slaughter house(nearing completion).. .. .. Rs 2000 4015

(4) Special re-coating of roads about 21 miles in length of previous year. Rs 36,361/-

Received Hall

45

5. constructing a semi circular platform in front of Zoo Garden. ₹.1,310/-

6 do + do -

6. Constructing two -- minarets at the entrance of Srangere Rampart wall. ₹:3,672/-.

has

pro The projects which are either fully c prepared and are awaiting submission t to Government or are in different -- stages of completion are -

7 1. Improving the frontage of Jagammohan Palace and -- constructing pavements to Lakshmivilas Road.....₹:7,500/-

2. Improving Nazarbad main Road..... ₹:~~5,00,000~~ 90,000

3. Constructing foot paths on Doddapetta Road.....₹.25,000

4. Improving the Devaraj Market square.....₹ 2,00,000

8 5. Constructing Devaraja Market interior stalls...₹:40,000

Proposal Already disallowed by Govt 6. Constructing Municipal Offices..... ₹ 1,10,000

7. Minor works..... ₹ 10,000

8. Acquisition of all houses in the Fort..... ...₹:10,00,00 9

5 In addition to the above, the President-Chairman made a careful --- study of the condition and needs of the City from various standpoints, such as sanitary and aesthetic and prepared a comprehensive memorandum dealing with the improvement of the City.

Appendix A

This memorandum was submitted to the Chief Engineer and Secretary Public Works Department who has approved of it in the following terms:-

" 3. Credit is due to you for having " thought out the matter and put forth " these suggestions, for to know what " is required to be done, is a thing

" step towards doing it".

6 After his return from deputation to the Bombay Presidency and as a result of such deputation, the President-Chairman has submitted his first instalment of proposals for the Improvement of the City and of its Municipal administration Vide Appendix B .

7 It will be thus seen that the President-Chairman has been fully occupied and has succeeded in accomplishing a very considerable amount of Municipal and Trust Board work in addition to the special works detailed above.

8 In estimating the relative advantages of one system of administration over another it is undoubtedly true that the results secured afford a true test, but the system under trial should be given a sufficiently long period of time, and one year, it is respectfully submitted is much too short. In the present case even the whole of one year was not at the disposal of the President-Chairman for being exclusively devoted to Municipal and Trust Board works. Large deductions as set forth above for the special works had to be made

9 Over and above the concrete results detailed above, one important advantage of the present system of administration has been to lead the members of the Council and of the Board to take more active interest in the affairs of the two

Appendix A

PROPOSED IMPROVEMENTS FOR ERODE TOWN.

I. Widening of roads and streets for facility of traffic.

(1) Mohadoon Sub Darkhana Street.
(2) Santhapet Road.
(3) Sivarampet Road near the junction of market.
(4) Gulur Subbanna & Move Street.
(5) Railway Station Road leading to Government House near Police Station - (marked A on plan)

II. Improvements to important thorough-fares:-

(a) The following thorough-fares to be improved by knocking down unsightly small houses, deteriorated mud and brick compound walls and all other small things which disfigure these roads by facing them.

(1) Chennaraja Road.
(2) Vanivilas Road.
(3) Railway Station road leading to Government House.
(4) Kanavilas Road.
(5) Sayaji Rao Road.
(6) Race-course Road - Ittigerud portion.
(7) Viceroy Road (Weavers' line portion)
(8) Karur Kongu Road opposite the northern gate of Government

Appendix A

PROPOSED IMPROVEMENTS FOR MYSORE TOWN.

++++++++++++++.

I. Widening of roads and streets for facility of traffic.

(1) Mahadeeswara Sab Karkhana Street.
(2) Santhapet Road.
(3) Sivarampet Road near the junction of market.
(4) Gulur Subbanna & Mave Street.
(5) Railway Station Road leading to Government House near Police Station - (marked A on plan)

II. Improvements to important thorough-fares:-

(a) The following thorough-fares to be improved by knocking down --- unsightly small houses, deteriorated mud and brick compound walls and all other small things which disfigure these roads by facing them.

(1) Chamaraja Road.
(2) Vanivilas Road.
(3) Railway Station road leading to Government House.
(4) Ramavilas Road.
(5) Sayaji Rao Road.
(6) Race-course Road - Ittigoud portion.
(7) Viceroy Road (Weavers' line portion)
(8) Kaman Berwaja Road opposite the northern gate of Government House.

(9) The plot of ground opposite the Western wall of the Fort facing Sayaji Rao Road to be cleared of all the small insanitary houses and the land allotted for the erection of a charitable institution (School building) by Sowcar Banamiah, if the same is not wanted for Palace ---- purposes, or kept open for recreation purposes during the grand festivities of Dasara and His Highness the Maharaja's Birthday, and the occassions of visit of distinguished -- personages to the Capital.
(Marked B. on plan).

has been decided to give this land Sowcar Banamiah for a school building. ×

(10) Remarked High Road:-

This road is an important approach to Yuvaraja's and Second Maharaja Kumari's --- Mansion. It is a good wide road with bungalows on each side except for a length of about 600' where the road is very narrow and disfigured by bazaars and shops on both sides facing the road. Those bazaars and shops must be knocked down and land acquired for 100' to 150' deep on each side of the road and sites created for small cottages and bungalows, widening the road at the same time. The proposed improvement

improvement will be in continuation of the nice small cottages built by the Palace on this road. The bazaars and shops can be located in the same area away from the road.

(Marked C on plan).

(b) and the following by inducing the house owners to enclose the small irregular strips of land in front of their houses by a neat and uniform compound wall:-

(1) Srirampet Road
(2) Lakshmivilas Agrahar Road.
(3) Mandi Market road.
(4) Santhepet road.

III. The junctions of three and more than three roads on important roads to be properly treated with a view to facilitate traffic and add to the picturesqueness of the town:-

(1) Improvements for the Market Square

This is an important junction of six roads with the Dufferin fountain in the centre. All the roads meet here very irregularly and the shops round the square are most awkwardly situated, unsightly and filthy looking. The square requires a proper treatment. A number of shops with good outside appearance can be built by the Trust Board or Municipality, and they are sure to be a source of revenue to the

the Municipality, or after acquiring the properties the land may be given out to private merchants who will build shops as per plans furnished or ---- approved by Government.

(2) Junction of Railway Station Road and Sayaji Rao road where the new Technical Institute and the new ---- Hospital are being built.

(3) <u>Viceroy road and roads meeting it along its length:-</u>

This is a nice broad road with bungalows on either side. All the junctions are very narrow here and likely to create collisions of ---- carriages & motor cars etc.

(4) <u>General Road and Tank Fund Road.</u>

(5) <u>Mazarbad High Road & Karanji Tank road near the Yuvaraja's ---- residence.</u>

(Marked ✓ on the plan)

IV. <u>Public Buildings:-</u>

(1) The city is very badly in want of a Municipal office to accomodate so many departments. A nice capacious building on a good central site is a great necessity for the capital city. Two sites are suggested:-

(1) The present Royal Hotel Premises

buildings in it and a vast area of open land on which a ford can be built. It is in the Viceroy road, a minute's walk from the station, and is very close to the Public Offices.

(2) The open site between the Devaraj Market and the General Hospital. The former must be acquired and the latter is Government land. (Marked 2 on the plan).

(3) The land at the Cauvery Park to the east of the Mysore Lodge to other buildings —

(?) Improvements to the extensions and the Devaraj Market.

(3) Small decent markets in the Extensions.

(4) Dispensaries:-

Every Mohalla should have a good dispensary with open space and a small garden in it. They should all be designed with a view to give a pleasing outside appearance and should be placed on important roads.

(5) A Modern Veterinary Hospital should be erected. At present it is in temporary sheds.

(6) Swimming baths.

Each Mohalla should have at least two baths.

(7) Bathing Ghats — 2 or 3 for each Mohalla.

V. Sites for small cottages and chawls for the poor, like:-

V. Sites for small cottages and Bungalows:-

(1) Small sites may be created in Chamaraj Road & Vanivilas Road by lopping unsightly and disfigured mud humps. This will improve these roads a great deal and add to the beauty of the town. (Marked b on plan)

(2) Viceroy road where Weavers' Lines begin. There is a row of unsightly houses facing this road commencing from Weavers' Line for a length of about 600'

(3) Improvements of Nazarbad High Road. (Please see page 2).

(4) Race-course Road (Ittigegud portion).

(5) Kumara Kerwaja Road opposite northern gate of Government House.

VI. Other Miscellaneous Improvements

(1) The Doddakere bathing ghats may be improved and made picturesque by having small garden, benches etc. For the sake of decency for women bathing there, small screen walls with creepers on them may be erected.

(Marked a on plan).

(2) Improvement to the tank bund itself, lowering, widening & planting.

(3) The Race-course Road has a very

circuitous route to join on to the Tank-Bund Road. Near the Cody this road can be continued straight through the tank with a culvert over the [illegible] between Cody and this road be filled in with a tunnel in the middle, and a garden created there.

(Marked K on plan).

(4) Improvements to the Karanji Tank area [illegible].

(5) Improvements to the Fort.

(6) The conversion of Subrayankere bed and the vacant land to the east of it into a park or garden.

(Marked K on the plan).

(7) A large number of Palace officials who have been dislodged in the Fort, have not been allotted sites yet anywhere. They are not prepared to go a long distance from the Fort, as their services are required at the Palace at all hours of the day and night. Their living at great distance from the Fort inconveniences them much. All the remaining huts in Pindarapori between Sitavilas Dharmasala and Vani-vilas Road, may be acquired, and the area allotted for house sites to the Palace officials.

(Marked S. on plan).

(8) The small insanitary houses in front of the Womans Wesleyan Mission Hospital may be removed, and the

are kept open on sanitary and aesthetic grounds.

(Marked L. on plan).

(9) Continuance of the ornamental railings round the Park.

(10) Filling Furnish's Mills in Edge Extension.

(11) Widening the width of very wide roads in the city, with a view to maintain them more economically and efficiently than now.

Yours

Sd/- Ishwarchandra

Chairman

29/10/14 Improvement Trust Board.

Enc to Ml 131-73-3

Proposals submitted by Mr.T.Lukm-
-anna Rao, for consideration and orders of Government, after his deputation to Bombay, Ahmedabad and Poona.

-:XXXXXXXXXXXXXXXX:-

I. General Town planning and improve-
-ments of the City.

A complete statement of improve-
-ments required for the City in its present stage is prepared and submitt-
-ed herewith. The Chief Engineer, to whom it was submitted, has approved of the whole statement. Detail projects will be prepared for them one by one in order of urgency and as funds are availa-
-ble, and submitted to Government for sanc-
-tion after obtaining the approval of the Board.

II. Underground pipe drainage.

Underground pipe drainage has been started here and No. 3 Drainage area is practically complete. The project provides one house connection free to every house. Most of the houses have more than one. Every endeavour to induce the house owners has been futile u till now to make them build the other connections at their own cost. Unless all the house connections are completely

completely made the expenditure on - under ground drainage system is not only a waste but the pipes will be a constant source of insanitation from the collect--ion of un healthy gasses in them.

Two methods of aveiding this in--convenience are suggested.-

1. Construction of all the connect--ions to be undertaken by the Government and the cost thereof with interest at - 4 % to be recovered in 100 or 120 easy monthly instalments.

2. Construction of the connection by Government and levying a permanent - House Connection cess taking into - consideration the initial cost of the - connections, the interest thereon , and the cost of maintaining them.

Method No. 2 is to be preferred as the collection them can be done - with the usual mohatarfa tax and the - people do not feel. This system is in practice in Baroda.

III. <u>The Sewage Farm.</u>

Cases are not many in which the sewage farms are profitable when managed departmentally. The soil in the - sewage farm at Ahemedabad is admirably suited for the purpose and yet the - farm as long as it was managed depart--mentally worked at a loss. Now the net profit per year is Rs. 12,000/- .

on about 200 acres which gives an aver-
-age income of Rs. 60 per acre. The
profit is so high on account of superior
quality of the soil. At Baroda the
the sewage is supplied to private lands
at Rs. 27/- per acre. Both these -
systems are good and either may be -
adopted in Mysore. It may be more
advantageous to start with the latter
system first i e. supplying sewage from
the septic tank to private lands, -
giving them expert advice so as to enable
then to raise most profitable crops
without rendering the lands " sewage
sick". If they cannot manage, then
acquire the whole land and form the -
farm and demonstrate, and afterwards
lease out as in Ahemadabad. If the
above method is adopted there will be
an immediate savings of Rs. 18,000/-
provided in the project for the acquisi-
-tion of the lands of the proposed farm
and another Rs. 8,000/- for the terrac-
-ing and forming the lands of the Farm.

IV. Housing the dishoused poor.

As I had reported in the Administ-
-ration Report of last year, this was
an anxious problem for me and I -
particularly studied this question -
wherever I went. The system obtained
in Bombay does not suit Mysore. The

the chawls that are being built are not all adoptable nor is the system of - inducing the mill owners to construct buildings for their labour practicable in Mysore. In Baroda they have not thought of the question at all yet. The following schemes are suggested -

1. Building sanitary buildings as per type designs by Government on a - fairly large scale and letting them out on rent free system. The value of houses may range from Rs. 300/- to Rs. 2,500/- .

2. Institution of a more or less permanent House Building loans system. Now a certain amount is sanctioned and out of which a small amount is allotted each year. All amounts recovered on account of these loans are credited to Government so that the total amount - available for loans is very small each year in comparision with the requiremen--ts. It is proposed that a permanent advance of certain amount should be - made to Trust Board for loans and the Board should have the power of lending the amounts recovered again and again crediting to the Government only the interest thereon. The small loans now made have been of immense help to the dishoused poor and if for some years

years to come the loans are given liber-
-ally more than half their hardship -
will have been avoided.

A complete scheme will be formulated and submitted if this is approved by Government.

3. Opening out of extensions.

The Bombay Trust Board is very sorry that the extensions were not made prior to the improvements of the City. They are now having them with a vengeance. The extensions already formed in Mysore have been very popular and there is one more extension now under investigation to the west of the filter beds - which is likely to be more popular than all. This new extension may be - opened out as soon as practicable and all facilities given to the dishoused poor who are willing to go to this - extension.

4. Formation of Private bodies or Building Association.

In Bombay the Trust Board have found it impossible to build houses on commercial lines and therefore they have not been able to induce the public to form associations for undertaking construction of large number of houses for renting purposes. It is, however, observed in Bombay that only one -

one fourth or less of the houses are occupied by owners, the rest are all - rented showing that it pays one to build houses. In Mysore the advantages are considerably more regarding both - the material and labour and as for space to be built on no comparison can be made, the land in Mysore being available - almost for a trifle. My honest - conviction is that building houses will be profitable and associations of private sowears can be formed to undertake such buildings. Special concessions to such associations are to be given. Such associations can give great relief to the dishoused by providing them with - houses for rent, or on rent free system.

Summarising the proposals they are:-

I. Works for general town - planning and improving the cities be - undertaken as per statement accompanying in order of urgency and availability of funds.

II. All house connections with the underground drainage pipes to be - constructed for all the houses by - Government and the cost thereof with low interest be recovered in 100 or 120 easy monthly instalments or a permanent House-

House-connection cess levied taking into consideration the cost of such connections, interest thereon and the cost of the maintenance, in fixing the cess.

III. The management of the proposed sewage Farm in Mysore by Government agency need not be attempted. Sewage to be supplied to the private land owners in the farm at stipulated rates as in Baroda.

IV. For helping the dishoused poor, the following measures may be adopted -

1. Construction of sanitary houses as per type designs at costs varying from Rs. 300/- to Rs. 2,500/- and letting them out on the rent free system.

2. Institution of a more or less permanent House Building loans system.

3. Opening out a new extension to the west of filter beds and giving all facilities for dishoused poor to settle down there.

4. Formation of private bodies or Associations for building houses and letting out or selling on rent free system to the poor and granting liberal concessions to such associations.

President.

M.R.V.

Proposals for consideration and order of Government on Municipal matters in Mysore.

--:0:--

1 Sanitation.

1. In Bombay motor waggons and ~~steam waggons~~ are employed for carting the street refuse from the City to the refuse station outside the City. Before introducing these waggons the removal of refuse was very unsatisfactory and since their introduction it is said to be very efficient There is not much difference in the cost of maintenance but for the same cost the efficiency is considerably more.

"From a sanitary point of view the best method of disposing off refuse is that in which the refuse is got rid off in the quickest way with the least handling without dust or smell, preventing accumulation near houses".

The miserable carts available in Mysore can never be made to dispose off the refuse in the way above mentioned. These carts may be utilised only for collecting the refuse from the lanes and gullies and deposit it in stations selected for the purpose. Motor waggons to be employed to remove the refuse from such stations to the depots outside the City. Two waggons to be purchased for the present One of the waggons may be a standby ordinarily,

but at times of pressure such as the Birthday and Dasara festivities it may also be made to work.

In Bombay the cost per ton-mile has been calculated at 9 pies for steam waggon. For motor waggon it will be less probably 8 pies.

2. In the undrained portions of Ahemedabad no sullage is allowed to soak any body's house Iron chauldrons are placed in some houses and in some places on the road at intervals. Sullage carts go round, collect the sullage from these, and carry it emptied into the sewers Sullage cess varying from annas 8 to Rs.2 per house per ..... is levied.

This system may advantageously be introduced in Mysore for undrained areas.

3. The Municipalities of Poona and Ahamadab d are making large profits from the night soil The night soil is conveyed to a poudrette depot 3 or 4 miles out of the City and converted into manure by what is termed the trenching system. In Ahamadabad the manure is sold after the trenching operation and in Poona the crude night soil itself is sold at the pail depots in the City. The contractor in the latter case has to convey the night soil, convert it into manure at the poudrette stations and then remove. Carts are, however, supplied by the Municipality for conveying the night

soil Invariably in all the cities of Bombay, Ahamadabad and Poona, Halalkor cess is levied on all the houses and the night soil is conserved by the municipalities ~~municipalities~~ agency will be Benefitted in addition to the sanitary improvement of the City.

The earlier the system is in force the better, the Municipality

This item of work may be made self-supporting by the introduction of Halalkor cess.

IIRoads.

1. The apparently good condition of the roads in Bombay is entirely due to their efficient watering 2 or 3 times ~~times~~ a day Hydrants at short intervals are fixed all along the main roads which cannot be watered by hydrants, water carts are employed. In Mysore the material available is decidedly better and unless facilities for watering the roads are created by having mains and hydrants along all important roads ~~important roads~~ and water supplied ~~supplied~~ freely, no improvement in the condition of roads can be effected. They must ~~must~~ continue to be dusty. The quantity of water now being pumped into Mysore City is just sufficient for purposes of water supply If roads have to be watered efficiently and water supplied satisfactorily to all the gardens that are already formed and those that are likely to be formed hereafter a seperate installation of unfiltered water supply will have to

Two men, with a short length about watering the roads morning and evening of roads

erected which may cost about Rs.2 lacks. Considering the importance of the capital City the maintenance of the roads and its gardens in a first class condition is very essential and the expenditure of this amount on such necessary items is nothing but justifiable The installation of this additional water supply cannot be too soon erected.

III Buildings.

The market condition of the Neveraj market in Mysore reflects great discredit on the Municipality. Beyond the front and the side building on Sayaji Rao Road, there is nothing in its favour. The interior stalls are tottering dirty uncouth and ill maintained. It is also cramped for want of space. The improvement of the market aesthetically, sanitarily and for foulity of trade will have to be taken up as the first item in the improvement of the city.

2. The foot paths and avenues on them are a feature in Bombay In the Curzon park and on one or two important roads the foot paths may be improved by paving them with slabs or Indian patent stone. The present system of gravelling always allows growth of small patches of grass and renders the foot paths untidy and neglected appearance, besides making them rough and imconvient for the pedestrians Double rows

of avenue trees on all wide foot paths on the important roads and single rows on other roads of the City are a desideratum for the embellishment of the City.

IV Taxation.

The system of octroi duty has been condemned in some of the Municipalities of Bombay as being one tending to considerable harassment to the public and loss to the municipality. "Terminal Tax" has been approved of by Bombay Government in its place and ordered its introduction in 3 of its Districts tentatively from the commencement of the ensuing official year. Ahamadabad has accepted the system and is going to introduce it in its municipality the question of the suitability in Mysore and Bangalore may be investigated

(The copy of bye-laws framed on the introduction of this tax in ahamadabad is appended for reference.)

2. The prevailing system of presenting a notice of demand in the collection of taxes had led to occassional if not frequent defalcations of taxes collected by collection Mussaddies or Shanubogues I studied the system care-

ly and found it defective in that this notice is passed off for a voucher to the illiterate party by the clever collection mutsaddy and the amount so collected is not credited. The office cannot by any manner of means detect such defalcation as the voucher, which is intended to be issued on receipt of the amount is in tact in the book.

In Bombay Municipality this first notice of demand is given only as a notification in the Gazette. Then the bill is presented by the collection clerk. If the tax is paid, the bill is handed over to the land lord which serves a voucher also. As the clerks are made to account for either the bill or its amount every day and any bill is not allowed to be in the custody of the clerk for more than 24 hours, no chance is given for defalcation. This system was introduced in Bombay 5 years ago, and since its introduction there has not been a single case of defalcation. This may be introduced in all our manicipalities.

V Finances of the Municipality.

The financial condition of the Mysore Municipality appears to be poor. In more occasions than one the Government was pain-fully compelled to the necessity of denying the sanction of dress to the menial servants, who wait upon officers. The operations of the City Improvement Trust Board has increased the length of the roads, cross roads, lanes and gullies more than ten fold since . ... It has opened several extraordinary wide roads (100 feet). All these roads are to be maintained by the Municipality . The amount allotted for road repairs several years ago continues to stand even now and the Municipality in its present financial condition cannot conveniently spare any more funds for roads repairs. It seems absolutely necessary to increase the allotment considerably and the ways and means of doing so requires to be investigated.

The question of introducing compul-sory education in Mysore, I learn, is under contemplation. This also requires additional funds.

The new extensions and the drainage works already executed and those under execution has increased the conservancy establishment

A committee may be appointed to investigate the present financial condi-tion of the Municipality and find out means of improving it so as to meet the extra demand on account of repairs of addi-tional roads newly opened by City Improve-ment Trust Board and on the system of - . universal education.

Summary of the proposals. 1.

Sanitation.

1. Purchase of two moter waggons for removing street refuse from the City to the refuse station outside the City.

2. Arrangements to remove sullage from houses, in underained portions of the city to be made, ~~sullage cess if necessary, to be made~~ and sullage cess if necessary, to be introduced.

3. Introduction of the system of re-moval of night soil by municipality in the whole of the city and formation of Pouderette stations. Incidence of Hala-lkor cess.

II Roads.

I. Creating full facilities for watering roads by the installation of a separate unfiltered water supply system with mains and hydrants along all import-ant roads of the City.

2. Foot paths in Curzon Park and in

in every important roads to be paved with stone. Slabs or with Indian patent Stone Double row of avenue trees to be planted on wide foot paths and - single rows on others.

III Buildings.

Devaraja market to be improved and extended.

IV. Taxation.

1. The suitability for introduc-ing terminal tax in Mysore may be - investigated.

2. The system of collection of taxes by " Bills" to be introduced in the Municipality.

V. A Committee to investigate the present financial condition of the municipality and to find means of - improving it with a view to meet the extra demand on account of repairs of additional roads, lanes and gullies newly opened by the City Improvement Trust Board and on the introduction - of compulsory education.

D Lakshmanarao

President.

M.R.V. Comtd Pgs II 29 4 14

It is hereby given to the inhabitants of the Municipal District of Ahmedabad under Section 60 (b) and 48 (2) of the District Municipal Act that this Municipality desire to adopt the following Rules and Schedules under Section 46 (1) read with section 60 and By-laws under section 46 (i), (j), and (u) for the levy of Terminal Tax in lieu of Octroi and House and Property Tax. The nature and object of the proposed Terminal Tax have been approved by Government prior to its selection under their Memo No. 7703 G.D. dated 24th October 1915.

TERMINAL TAX RULES AND BY-LAWS.

1. These rules and by-laws may be cited as " The Ahmedabad Municipality Terminal Tax Rules and By-laws. "

In these Rules and by-laws unless there is something repugnant in the subject or contest:-

(a) " Import " and " Export " mean respectively the conveying of goods into or out of the Terminal tax limits of the Municipal District from or to any other local area by rail,

(b) "Terminal Tax" means Octroi on goods, specified in the Terminal Tax Schedule, and imported through rail into the Municipal District of Ahmedabad.

N.B.-Goods specified in theTerminal Tax Schedule which are consigned to the following Non-Municipal Railway Stations, are li bi to the Terminal Tax while entering the Terminal Tax limits -

(1). Barejdi, (2) Sabrmati, (3) Naroda and (4) Sarkhej.

(c)."Terminal Tax Limits" means the whole of the Municipal District of Ahmedabad.

(d). "Terminal Naka " means one of the following stati may be established and notified by theMunicipality from time to in the Municipal District

time in the Municipal District:-

(a). Ahmedabad Railway Station Naka.

(b). Kankaria Railway Station- " .

(c). B.B.Railway Station " .

(d). Asrwa Railway Station " .

(Provided that when the Municipality desire to establish a Terminal Naka within Railway premises, the previous express permission of the Railway Administration, shall be obtained.)

(e). "Terminal bill" and "Export certificate" means respectively a receipt and certificate in the prescribed form furnished and signed on import by the NakaKarkun and on export by the refund Karkun of the Municipality in accordance with the conditions prescribed in that behalf.

(f). "Public Authority" means Government, a Local Board or the Municipality.

(g). "Goods in Transit" means goods exported by rail within 72 hours of import.

(h). "Import Naka Karkun" and "Export Naka Karkun" mean a Municipal Karkun at any import or export Naka on duty connected respectively with import and export.

2. During the period these rules and by-laws are in force, all the rules relating to House and Property Tax, and Octroi Tax shall be in abeyance, except in the case of the railways.

3. Subject to the exemptions and the provisions hereinafter expressly specified, a tax on all goods of the descriptions mentioned in schedule A hereto annexed shall on the import thereof be paid to the Municipality, at the rates specified for such goods respectively in the said schedule.

4. The following goods shall be exempt from the said tax -

1. Personal luggage of railway passengers accompanying the passengers in a passenger train.

2. Parcels less than 15 Bengal seers in weight carried by passenger train.

3. Articles received into the Terminal Tax limits through

through Postal agency.

4. Articles belonging to Government and certified as such by a responsible officer in the form prescribed by the Municipality.

5. 2. Officers will be supplied with blank forms on indent according to their average requirements.

5. Arms, and ammunition, including all guns, rifles, pistols, revolvers, swords, daggers, cartridges, bullets, powders, percussion caps and empty cartridge cases. Also detonators, fuses for use with explosive, fog signals, and all explosives.

6. The said tax shall be payable to the Naka Karkun of the Municipality at the Terminal Naka, on his tendering a Terminal bill for the same.

6. Every person importing into the Terminal Tax limits any vehicle on which Terminal tax is payable shall, when required by any officer or servant of the tax collecting establishment or their superior officers and so far as may be necessary for ascertaining the amount of tax chargeable.

(a). permit that officer or servant to inspect, examine, and weigh (if necessary) and otherwise deal with the article; and

(b). communicate to that officer or servant any information and exhibit to him any railway receipt, bill, invoice, or document of a like nature, which he may possess relating to the article.

7. If any person importing into the Terminal tax limits any conveyance or package shall refuse on demand of any officer or servant mentioned in [illegible] by-law No.6 to permit theofficer or servant to inspect the contents of the conveyance or package for the purpose of ascertaining whether it contains any articles in respect of which Terminal Tax is payable or of ascertaining its weight the officer or servant may cause the conveyance or package to be taken without unnecessary delay before the officer in charge of the Terminal Naka, or Terminal Tax Superintendent, Secretary, or Chief Officer, who shall cause the inspection to be made in his presence

8. In the case of non-payment on demand of Terminal

the officer appointed to collect such tax may seize any article on which such tax is chargeable or any part of the goods, which is of sufficient value to satisfy the demand and may detain the same. He shall thereupon give the person in possession of the goods or articles a list of the property together with a written notice in the form of schedule B, that the said property will be sold as shall be specified in such notice.

9. When any article seized is liable to speedy and natural decay or when the expense of keeping it, together with the amount of Terminal Tax chargeable is likely to exceed its value, the officer seizing such artible may inform the person in whose possession it was that it will be sold at once and shall sell it or cause it to be sold accordingly unless the amount of the Terminal Tax demanded be forthwith paid.

10. If at any time before the sale has begun, the person whose property has been so seized, tenders at the Terminal Naka or the - Municipal Office the amount of all expenses incurred, and of the - Terminal Tax payable, the Chief Officer, Terminal Tax Superintendent or any officer authorised by the Chief Officer shall forthwith release the property seized.

11. If no such tender is made, the property may be sold by - public auction, and the proceeds of such sale shall be applied in payment of such Terminal Tax and the expenses incidental to the - seizure, detention and sale.

12. The surplus, if any, of the sale proceeds shall be credited to the Municipal Fund and may, on application made to the Chief - Officer in writing within six months next after the sale, be paid to the person in whose possession the property was when seized, and if no such application is made it shall be the property of the municipality.

13. The Terminal Tax Superintendent shall cause;

(a). a copy in vernacular of these rules and by-laws with the schedules thereto and of the tariff table for the time being in force bearing his signature,

(i) to be furnished toeach Naka Karkun,

ii. to be fixed up at the Municipal Office,

iii. to be posted at each Terminal Naka, and

iv. to be placarded at each such conspicuous place in the Municipal District as may be convenient for affording information to those - likely to be affected thereby;

(b). a set of scales and standard weights to be kept;-

(i). at each Terminal Naka,

(ii). at the Municipal Office,

from time to time to be furnished to each,

(i). Import Naka Karkun, and

ii. Export Naka Karkun respectively,

(i). A stiched Terminal Bill Book with pages numbered in consecu-tive order, containing infoil and counterfoil blank receipts - according to the form in schedule C hereto annexed.

(ii). a stiched Export Certificate Book with pages numbered in con-secutive order, containing certificate infoil and counterfoil - according to the form in schedule D hereto annexed;and

(d). Export Naka Karkuns to be supplied with such advances, as on consideration of average requirements, he may consider sufficient to enable them to make refunds as hereinafter provided.

14. (i) Every Import Naka Karkun shall, whenever goods are - brought to his Naka, prepare a Terminal bill by ascertaining and noting in the consecutive order of the pages, both in the foil and counterfoil of his Terminal Bill Book, the following particulars Viz.

(a). the description of the goods according to the - schedule A hereto annexed,

(b). the quantity or weight of the goods as specified in the railway receipt and No; thereof;

(c). the rate at which the tax is calculated,

(d). the amount of the tax, if any, leviable on the - goods,

(e). the name of the owner, or person in-charge of the same.

(f). if accompained by a declaration under No.15 or

of those rules and by-laws, a statement to that effect shewing the name of t e importer, the quantity and description of the goods & contract specified.

(g). if declared in writing to be goods in transit,

(1). the fact that such declaration has been made,

(2). the date, and

(3). hour at which the goods pass the Terminal Naka.

(h). the date of payment of tax, if any.

(9). The Import Naka Karkun shall prepare separate Teminal bills for such taxable goods a s are intended to be locally used and for such as are intended to be exported.

(3). On payment of amount, if any, leviable the Naka Karkun shall sign the foil, detach it, and deliver it to the person making the payment and shall retain the counterfoil undetached in his Ter-minal Bill Book.

(4). The Import Naka Karkun shall retain any declaration given him in writing that the goods imported are the goods in transit by rail, and if such declaration is not in writing, shall inform the person incharge of the goods that unless such written declaration is given, no refund will be obtainable at the Export Naka.

(5). At the close of each day, every Import Naka Karkun shall report to the Terminal Tax Superintendent through the officer in charge of the Naka every case in which goods have been imported, accompanied with a declaration under No. 15 of these rules and by-laws that they are required in fulfilment of a specified contract with a Public Authority.

15. Refunds of the amount paid on imported goods shall be made from the Municipal Fund in the following cases and subject to the following conditions.

(1). In respect of goods declared at the time of their import to be required in the fulfilment of a specified contract with a Public Authority the refund shall be made to the credit of such Public Authority subject to t e conditions:-

(i). that such goods shall have vested in such Public Authority, and,

(ii). that a certificate to that effect signed by the officer in - charge of the work to which such contract relates shall have been produced.

11. Except as aforesaid no refund shall be made in respect of goods unless,

(a) the amount of the refund is a sum not less than one rupee,

(b). the goods have been exported by rail within 72 - hours of their import, and a claim has, not latter than 72 hours next after export thereof, been made for such refund in the - prescribed manner to the prescribed officer or authority, and

(c) . the claimant has, if so required by such officer or authority produced,

(i). a receipted Terminal bill,

(ii). an export certificate relating to such goods,

16. No refund shall be granted on the export of goods by rail if they have broken bulk or have changed hands, or have changed their form by any process of manufacture.

17. (1) Every Export Naka Karkun, whenever goods are brought to his Naka for export and are declared to be goods in transit, shall require the production of the receipted Terminal bill and shall satisfy himself;

(i) That the Terminal bill is an authentic and legal document issued by the import Naka Karkun and countersigned by the officer in charge of the Terminal Naka.

(ii). that the goods so brought for export are included in the goods specified in the Terminal bill,

(iii). that the goods are stated in the Terminal bill to have been declared at the time of import as " goods in transit,"

(iv). that the goods have been brought for export within 72 hours next after the date on which they appear from the Terminal bill to have been imported, and

(v) . that the amount claimed as refund in respect of the goods brought for export does not exceed the amount appearing from the Terminal bill to have been paid in respect thereof at the time

time of their import and is not less than one rupee.

(8). When the Export Naka Karkun has, On examination of a Terminal bill so produced satisfied himself as above required, he:-

(a). shall out of the sum supplied to him for the purpose by Terminal Tax Superintendent pay to the person in charge of the goods, on his signing and giving receipt for the same, such amount, not being less than one rupee, as so appears to have been paid at the time of import in respect of the goods brought for export;and

(b). shall endorse on the Terminal bill the amount of the refund so paid, and

(c). shall note on the receipt acknowledging the refund the number of the page of the Terminal bill examined, and

(d). shall if the refund so paid corresponds in amount with the entire sum acknowledged in the Terminal bill, retain the Termina bill or

(e). shall, if the refund so paid does not amount to the full sum acknowledged in the Terminal bill, return the Terminal bill endorsed as aforesaid to the person in charge of the goods.

(9). Every Export Naka Karkun shall, at the close of each day;-

(a). in which case in which he had made a refund under this rule, report the same to the Terminal Tax Superintendent through the Officer in-charge of the Terminal Naka

(b). hand over to the Terminal Tax Superintendent,

(i). each receipt for each refund so made

(ii). each Terminal bill retained under rule 17 (2) (d) of these rules and by-laws, and

(c). account for any unexpended balance of the money supplied to him for refunds.

10. In the case of goods consigned to any of the railway stat-ions situated within the Municipal District by rail, if the person in charge desires to re-book the goods for re-exportatio by rail without their leaving the railway station yard, the Goods Clerk or the Export Naka Karkun stationed on the spot shall enter

either in the refund form to be prescribed by the Chief Officer the number and particulars of the import railway receipt and the amount (if any) of the Terminal Tax shown therein to have been paid thereon. The Goods Clerk or the Export Naka Karkun as the case may be shall then sign the refund form and deliver it to the person in - charge of the goods,

who on presenting it to the officer incharge of the Terminal Naka shall receive a refund of the Terminal Tax (if any) paid.

19. If the importer desires to pass the goods from the station yard to another within the Terminal Tax limits for export by rail, he shall apply in writing to the Terminal Tax Superintendent and shall submit a copy of the railway receipt under which the goods were imported duly signed by the Export Karkun of the Terminal Naka Such goods shall be conveyed to the Exporting Railway Station Yard at such time as the Chief Officer may prescribe, provided that the goods to be passed reach the exporting station yard before sunset and a sufficient deposit is paid. This deposit will be refunded by the officer in charge of the Teminal Naka on producing the - the export certificate within 24 hours of exit.

20. Any person infringing any of the by-laws Nos.6,7 and 19, shall be punished with fine which may extend to 100 Rupees.

21. If arrangements are made for the collection of this tax through the agency of the Railway Authorities, all the powers and duties of Municipal Authority prescribed in these rules in regard to the collection of the tax and the ascertain ent of the weight, value and amount of the tax, the detention and sale of goods, and all acts appurtenant to such powers and duties shall, be exercisable by the Railway Authorities.

22. An appeal from any rejection of a claim to refund shall if presented in writing within 15 days from the date of such rejection lie to the Controlling Committee.

GENERAL AND REVENUE SECRETARIAT

(*Continuation sheet draft form.*)

Order No Mul 131-13-53
9 8 75

In the order cited the arrangement under which the Exec. Comm. of the Distt was the Ex-officio Memb. President and Chairman of the Trust Board was done away and as a tentative measure Sri Lakshmana Rao Executive 4th Class, temporary was appointed whole time Memb. and Chairman of the Board of Trustees, Mysore City, on a salary of Rs 500 + Rs 100 local allowance, and a report was called for on the result working of that arrangement after a year's experience to enable the Govt to consider it might be continued with advantage and whether the Board of Trustees might also be

amalgamated with the City Municipal Council under suitable conditions

2 That report has since been received both the Municipal Council and the Board of Trustees Considered that the new arrangement has worked satisfactorily and recommend that the two bodies should remain may be made permanent, the two bodies existing side by side as independent entities the Dy. Com^r of the Anuradhapura District is also Chairman both of the Municipal Council and the Board of Trustees so that the scheme is found to be more satisfactory than the old system under which the Dy. Com^r with the Revenue Administration of the Largest District in the State was also President of the Municipality and Chairman of the Town Bd and could not give the required attention to the
